

# HOME CARE PLUS

trusted care at home

As the winter months and darker evenings creep in, the elderly in our family and community are particularly vulnerable and may need extra help. Home Care Plus is a private home care company for the elderly who want to remain independent in their own homes.

The Home Care Plus mission is to keep people living independently in their own homes for as long as possible thereby contributing to their family environment and society as a whole.

Home care services can be purchased in units ranging from one hour per day through to 24 hour live-in care, on a temporary or long-term basis. This system ensures total flexibility for our clients resulting in a bespoke service that responds to their individual needs and requirements.

## HOME CARE PLUS OFFER NON MEDICAL CARE AND SUPPORT THROUGH SERVICES THAT INCLUDE:

- Personal and hygiene care
- Companionship
- Meal preparation
- Light housework
- Convalescence care
- Respite care
- Transportation duties to appointments
- Shopping
- Assistance with medication reminders

Home Care Plus is run by a team of professionals, ensuring delivery of care and support to the highest standards. The team is led by Medical Director Dr. Michael O'Brien GP, and leading management consultant in health and social care, Clare Kirkman. All carers have been rigorously selected and vetted and Home Care Plus believes it has the best, and most dedicated team in the country.

Home Care Plus offers a free, no obligation assessment of the person and their home environment. From this, a personalised care plan can be drawn up for each client, detailing the exact care and support required. This care plan is constantly updated and provides the basis of the care we provide.

Home Care Plus helps people maintain their dignity, independence and enjoyment of life with an ethos of compassion and trust so that they can continue living independently in their home environment.

## THE PEOPLE WE PROVIDE THESE SERVICES TO INCLUDE:
